GoSecure TITAN

GOSECURE TITAN® SECURE EMAIL GATEWAY

Defending your business against email-based threats of today and tomorrow

SCAN EVERY EMAIL FOR MALICIOUS ACTIVITY

Cybersecurity threats like ransomware are surging through email and phishing attacks. This can cause massive disruption, brand devastation and be extremely costly.

GoSecure Titan® Secure Email Gateway keeps these unwanted emails from reaching your users' inboxes. This easy to deploy SaaS solution provides fast deployment and immediate ROI with unrivaled email defense against internal and external threats.

DEPLOY
An easy to deploy SaaS solution that delivers industry-leading protection and provides immediate ROI.

DETECT
Designed by GoSecure Titan Labs experts to detect the threats of today and the ever increasing and more sophisticated attacks of tomorrow by using machine learning, behavioral scanning, exploit prevention, signature-based detection and structure heuristics.

PREVENT
GoSecure Titan Secure Email Gateway provides unrivaled defense against phishing and business email compromise (BEC) attacks, spam, polymorphic malware, identity theft, account takeover and other dangerous or offensive content.

GOSECURE TITAN EMAIL GATEWAY PROVIDES

- Real-time email filtering
- Multi-engine scanning of attachments and URLs
- Content analysis to identify and block spam
- Spam quarantine with end-user digests
- Graymail handling

- Impersonation protection
- Automated active directory integration
- Fully customizable email rules for domains/groups/mailboxes
- Encryption, DLP and outbound filtering
- Email continuity ensuring that email will not be disrupted even during email server outages

GoSecure Titan Secure Email Gateway is designed to adjust dynamically to the changing threat landscape.

Features include:

- Machine learning-based detection
- Behavioral scanning
- Exploit prevention
- Signature-based detection
- Structure heuristics
- Comprehensive URL inspection
- Sender reputation
- Scheduled or on demand customizable reporting
- Fully customizable/granular control of email rules for domain/group/mailbox
- Email encryption
- Data Loss Prevention (DLP)
- Email continuity means email is always available even if the cloud service is unavailable

ABOUT GOSECURE

GoSecure is a recognized cybersecurity leader and innovator, pioneering the integration of endpoint, network, and email threat detection into a single Managed Detection and Response service. The GoSecure Titan platform delivers predictive multi-vector detection, prevention, and response to counter modern cyber threats. GoSecure Titan MDR offers a detection to mitigation speed of less than 15 minutes, delivering rapid response and active mitigation services that directly touch the customers' network and endpoints. For over 10 years, GoSecure has been helping customers better understand their security gaps and improve their organizational risk and security maturity through MDR and Advisory Services solutions delivered by one of the most trusted and skilled teams in the industry.
